Development Partnerships

Fundraising Guide

Welcome to Team GADP!

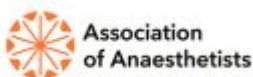

Read Our Fundraising Guide

Fundraising is one of the most powerful ways you can support us.

Securing funding for health partnership work is increasingly challenging, and your help means we can support safe surgery in Ethiopia and Zambia in the most effective way possible.

Read Our latest Impact Reports

We are delighted to share with you our latest Impact Reports celebrating the achievements and learning of the recent years. The reports showcase how we continue to navigate challenges to build safer anaesthetic care in Zambia and Ethiopia.

Our Partnership Programs

A large part of our work is undertaken via the operation of nation specific development programs. Our two main programs are as follows:

Zambia Anaesthesia Development Program (ZADP) established in 2012

[FIND OUT MORE \(ZADP\)](#)

Ethiopia Anaesthesia Development Program (EADP) established in 2018

[FIND OUT MORE \(EADP\)](#)

No matter who you are or where you are, we all need access to safe anaesthesia care. There are many ways that you can help GADP's commitment to developing safe anaesthesia care globally.

[GET INVOLVED](#)

I would recommend anyone to come and do the ZADP Fellowship at some point in their life. A lot can happen in six months. My entire life has changed, not just professionally but also personally. I have a different perspective on so many things, I've also really enjoyed living in southern Africa.

Dr Fatu-Amie Kalokoh

ZADP Fellow 2023

Training to be an anesthesiologist is always going to be a challenging path to take. Having the right kind of people and support around you is pivotal to making that path smooth and enjoyable. This is why I am so grateful for ZADP fellows who make the arduous journey through specialisation easier by offering invaluable support, quality teaching, quality advice, and most importantly, quality banter!

Dr Mack Kalenga
Senior Anaesthesia Trainee, Zambia

Meet The Team

GADP was created and continues to be guided by a dedicated and diverse team of individuals with a shared desire to improve global access to safe anaesthesia care.
